BAYSIDE BLACK TIE

This team took a formal black tie reception and infused it with some highlights of San Diego style. This table design was shot by the bay, with San Diego's gorgeous skyline as the backdrop. This table pays homage to the city through the beachy and casual details while maintaining its formality. The details are subtle but ever so present with a salute to some of San Diego's favorites- the surf culture, microbreweries, and Mexican churros - perfect for a reception in America's Finest City!
